SUMMARY

I'm a passionate Front-End Developer with a solid understanding of modern web technologies and a strong focus on creating clean, responsive, and user-friendly interfaces. Currently studying Computer and Information Sciences, majoring in Information Systems, I'm constantly learning and applying new tools and frameworks to stay aligned with industry trends. I strive to build scalable front-end solutions while developing my skills through real-world projects, teamwork, and continuous improvement. I'm seeking an opportunity to contribute, grow, and turn ideas into impactful digital experiences.
