SUMMARY

I'm a passionate Front-End Developer with a solid understanding of modern web technologies and a strong focus on creating clean, responsive, and user-friendly interfaces. Currently studying Computer and Information Sciences, majoring in Information Systems, I'm constantly learning and applying new tools and frameworks to stay aligned with industry trends. I strive to build scalable front-end solutions while developing my skills through real-world projects, teamwork, and continuous improvement. I'm seeking an opportunity to contribute, grow, and turn ideas into impactful digital experiences.

TECHNICAL SKILLS

- HTML5
- CSS3
- JavaScript (ES6+)
- React.js
- Redux
- Framer Motion
- Tailwind CSS
- Bootstrap
- Material UI (MUI)
- Git
- GitHub
- Responsive Design
- npm
- JSON
- RESTful APIs
- Component-Based Architecture

PROJECTS

Order Management System
- A frontend interface for managing products and orders, integrated with a backend hosted on Railway. Features include product management, order tracking, and sales statistics.
- Technologies: React.js, Tailwind CSS, Axios, React Router, React Hook Form

TravelSapher
- A responsive travel booking platform built with React and Vite, featuring Tailwind CSS for styling. The project showcases a modern UI for browsing and booking travel destinations.
- Technologies: React, Vite, Tailwind CSS

Dashboard UI
- A dashboard interface utilizing Material UI components, built with React and Vite. The project focuses on creating a user-friendly admin panel layout.
- Technologies: React, Vite, Material UI

E-Learning Platform
- An educational platform prototype developed using React and Vite, styled with Tailwind CSS. The project demonstrates a clean interface for online learning modules.
- Technologies: React, Vite, Tailwind CSS

EDUCATION

Bachelor's Degree in Computer and Information Sciences
Zagazig University – Faculty of Computers and Information

Major: Information Systems
Expected Graduation: [2026]
- Gaining a strong foundation in software development, databases, data analysis, and information systems management, with a focus on applying technology to solve real-world business problems.
